Instructions:

Pro Tech comes in 5' or 6' Lengths. You may choose which length you want for any job but **YOU MAY NOT MIX AND MATCH LENGTHS!** All pieces for one job must be of the same length.

Pro Tech comes in any of our colors. Chubby hangers are for existing gutter only and can be used for both 5" and 6" Pro Tech. Copper Pro Tech requires a special hanger; please contact the office for more information.

We have newly designed Supreme Pro Tech Hangers which allow you to install gutter now and go back later if necessary to install the Pro Tech. All that will be necessary is the purchase of 1/2" or 3/4" zip screws (your choice) to fasten the Pro Tech to the Supreme Pro Tech Hanger. Please call the main office for information on bulk pricing on our new hangers.

End caps are available in matching colors. You should order the appropriate right or left end caps. **END CAPS ARE CUSTOM MADE AND ARE NOT RETURNABLE!!**
